## Application for Site Engineer – Delmas Apparels (Pvt.) Limited

Dear Hiring Manager,

I am writing to express my interest in the **Site Engineer** position at **Delmas Apparels (Pvt.) Limited**. With over **9 years of professional experience in Civil Engineering, Architecture, construction supervision, site execution, and project coordination**, I am confident that my technical expertise and practical field experience can contribute effectively to your organization's construction and facility development activities.

Throughout my career, I have worked on a wide range of projects, including **factories, industrial facilities, power plants, silos, crushers, commercial buildings, residential buildings, and underground structures**. My experience includes supervising **RCC, reinforcement, formwork, masonry, plastering, waterproofing, finishing, and other civil works**, while ensuring compliance with approved drawings, specifications, quality standards, safety requirements, and project schedules.

I have strong hands-on experience in **site supervision, construction planning, quantity measurement, BOQ, contractor bill verification, material and manpower management, quality control, site inspection, and technical problem-solving**. I am also proficient in **AutoCAD and Total Station** and can effectively coordinate with contractors, consultants, MEP teams, supervisors, and other project stakeholders to ensure smooth and timely execution of construction works.

My experience in **industrial and factory-related construction environments** has strengthened my ability to work under demanding project schedules while maintaining construction quality, safety, productivity, and proper documentation. I am comfortable taking responsibility for day-to-day site activities and ensuring that work is executed accurately and efficiently.

I am particularly interested in joining **Delmas Apparels (Pvt.) Limited** because I believe my combination of civil engineering knowledge, extensive site experience, and practical project coordination skills would be valuable in supporting your company's infrastructure, construction, maintenance, and development activities.

I would appreciate the opportunity to discuss how my qualifications and experience can contribute to your team. Thank you for considering my application.

Sincerely,

**Bhuiyan Jaber Tanim**
